

**Lookout Valley Middle-High School
Pass-to-Participate Policy
2023 – 2024**

The primary purpose of this policy is to ensure academic success and provide an avenue for students to develop basic skills to be successful in their future career or as they pursue higher education and training.

Students will **not be eligible to participate** in extra-curricular activities under the following condition:

Grades: If the player/student is failing two or more classes (regardless of the grade)

Coaches/Sponsors will review the weekly grade report by 2:00 p.m. on Mondays to determine player or participant eligibility. If a student is ineligible, the student is not allowed to participate in any extracurricular activities and is **required** to attend Evening School/Tutoring until eligibility is obtained.

This policy is based on quarters. It will be enforced as written during each quarter and will reset at the beginning of each new grading period.

I have read and understand the Pass-to-Participate policy. I understand that I am responsible for signing a contract for each extracurricular activity in which my student is involved.
